

Pacific Surgical Institute

Longview Orthopedic Associates is located at Pacific Surgical Institute (PSI), a state-of-the-art, multi-speciality facility that is also home to Longview Urology, Washington Plastic Surgery, Pacific Imaging Center, Columbia Cardiology, Longview Physical & Sports Therapy, Northwest Medical Analytic Laboratory, Pacific Surgical Center, and Flourish Skin & Laser.

Pacific Surgical Center (PSC) is the only ambulatory surgery center in the area that handles orthopedic, urologic, gastro-intestinal, ENT, gynecologic, podiatric, plastic surgery, and general surgery procedures. The board-certified physicians at Longview Orthopedic Associates, Longview Urology, and Washington Plastic Surgery utilize PSC to perform procedures that do not require an overnight stay.

Pacific Surgical Institute was designed with patient convenience in mind. Pacific Imaging Center provides high-field MRIs that guarantee accurate diagnosis. Longview Physical & Sports Therapy delivers comprehensive rehabilitative services to patients recovering from procedures or existing conditions.

Pacific Surgical Institute serves patients throughout Cowlitz, Clark, and Lewis counties, as well the Lower Columbia Basin.

About Longview Orthopedic Associates

Founded in 1983, Longview Orthopedic Associates offers a broad range of orthopedic services provided by experienced, board-certified and board-eligible physicians with sub-specialties in shoulder, knee, hip, hand, and foot problems.

LOA also offers expertise in adult reconstruction, joint replacement, and sports medicine. Doctors Bruce Blackstone, Dave Black, Bill Turner, Jon Kretzler, Eric Hansen, and Peter Kung - along with ARNP Elizabeth Mraz and PA-C David Maligro - have more than 100 years of combined orthopedic experience.

LOA physicians handle nearly 20,000 patient visits each year and perform more than 1,500 surgical procedures.

What you get when you choose Longview Orthopedic Associates:

- The area's best trained and most experienced orthopedic surgeons
- More than 100 years of combined orthopedic experience
- Ongoing commitment to continuing medical education in the latest treatments and techniques
- Sub-specialization in shoulder, knee, hip, hand, and foot problems
- Specialization in arthroscopic procedures, joint replacements, sports medicine, and the evaluation and treatment of bone, joint, tendon, and ligament injuries and disorders
- On-site access to MRI, clinical lab work, physical therapy, and outpatient surgery to increase convenience for patients
- More than 25 years of service to the community
- Credentialed by all local insurances, including Kaiser Permanente
- State-of-the-art facility
- Convenient parking
- Professional office staff
- Assistance with insurance and billing questions
